Work Remote · 08:00–20:00 GMT+1 · overlaps UK, EU and US East mornings **Open to** Full-time and contract

PROFILE

Email and lifecycle marketer who handles the whole channel: strategy, copy, design and the Klaviyo build. Over three years I supported three ecommerce agencies, planning and building lifecycle flows and campaigns, managing segmentation and using cohort analysis to decide what to send, to whom and when. A pharmacy graduate (B.Pharm), I bring a compliance-aware eye to supplement, skincare and wellness messaging.

EXPERIENCE

Email & Lifecycle Marketing · Confidential agency engagements 2022 – 2025

Three ecommerce agencies · remote

Supported three ecommerce agencies with email strategy, copywriting, design and Klaviyo implementation.

- Planned and built automated lifecycle flows: welcome, browse and cart recovery, checkout, post-purchase, replenishment, win-back and sunset.
- Developed email campaigns end to end, from strategy and copy through design and Klaviyo builds.
- Managed audience segmentation to support relevant targeting and protect deliverability.
- Analysed customer cohorts to inform lifecycle strategy and campaign planning.
- Worked across several client accounts at once, matching each brand's voice and handing off to account and design teams.

Agency and client names, original assets and performance data are withheld for confidentiality.

Independent · Digital products

- Built funnels and direct-response email sequences that sold digital products to 1,277 buyers.

SELECTED PORTFOLIO PROJECTS (concept work for fictional brands)

Abandoned checkout split by cart value · Shopify, Klaviyo. Routed carts at $100: a tiered gift for high-value carts and social proof for the rest, instead of a blanket discount. Six emails, conditional splits and a holdout test plan.

First 60 days post-purchase · Shopify, Klaviyo. Six touches that earn trust before selling: usage education, review capture, a cross-sell feed and replenishment timed to product use.

Deliverability rescue · Klaviyo, Recharge, DNS. Authentication (SPF, DKIM, DMARC), engagement-based sending and a sunset flow to bring a 50,000-profile list back to inbox placement.

Campaigns: a three-email product launch, a weekly editorial newsletter and a 72-hour warehouse sale.

SKILLS

Lifecycle strategy	Flow architecture, customer journeys, campaign calendars, offer strategy, cohort analysis
Klaviyo	Flows, conditional splits, segmentation, dynamic content, A/B and holdout testing, reporting
Copywriting	Subject lines, preview text, direct-response body copy, SMS
Design	Mobile-first email design and modular templates in Figma
Deliverability	SPF, DKIM, DMARC, Google Postmaster Tools, list hygiene and sunset policies
Tools	Klaviyo, Shopify, Recharge, Figma, Google Postmaster Tools
